

What is claimed is:

1 1. A compact disk (CD), comprising:

2 a first data zone for storing video data and providing the same to a video  
3 compact disk (VCD) player; and

4 a second data zone for storing a plurality of web page linking files and  
5 providing the same to a computer browser, which can perform hypertext link  
6 with the video data of the first data zone;

7 whereby the VCD player will perform playback of the video data stored in  
8 the first data zone if the CD is placed in the VCD player, or a computer will run  
9 a browser to access the web page linking files if the CD is placed in the  
10 computer.

1 2. The compact disk (CD) according to claim 1, wherein the video data in the first  
2 data zone are VCD-formatted.

1 3. The compact disk (CD) according to claim 1, wherein the video data in the first  
2 data zone are SVCD-formatted.

1 4. The compact disk (CD) according to claim 1, wherein the video data in the first  
2 data zone are DVD-formatted.

1 5. The compact disk (CD) according to claim 1, wherein the second data zone  
2 further contains an autorun file so that the computer will run an inside browser to  
3 access the web page linking files when the compact disk is placed in the  
4 computer.

1 6. The compact disk (CD) according to claim 1, wherein at least one of the web  
2 page linking files is capable of linking with a default web site.

1 7. The compact disk (CD) according to claim 1, wherein the web page linking files  
2 of the second data zone are coded in HyperText Markup Language (HTML).
